☒ Source - River

Date of Incident 2: 02/08/02

☐ Source - Sea

Area Affected: Gardens on 3, 4, 5 Glynndale Drive, 54 Hackness Road

☐ Source - Rain☐ Source - Sewer

No of Properties: 2

Length of Time:

Frequency: 10 year intervals

Location: 4, 5 Glynndale Drive

Flooding Depth: 4 inches

Incident Ref: 115

Response Ref: 111

Water flows from properties in Hackness Road into Gardens of no. 54 Hackness and eventually into garden of Glynndale Drive. The ground to the west of the stream rises towards the back of the house in Glynndale Drive - to the east it is reasonably level. The floor level of the property (3) is about 4 feet higher than the property at no.4. At no point in the gardens of 3, 4, 5 Glynndale Drive, 54 Hackness Road does the stream overflow as the banks

Incident Ref: 120

Response Ref: 114

" the only reason that there is flooding in this area is because Scalby Mills is very badly silted up with gravel banks and vegetation growing on silted banks. In past years this Cut was dredged at least every 5 years thereby allowing easy run off of storm water from drain as marked on map. The ditch running alongside Cut and bungalows on Hackness Drive is also very overgrown and at its outlet into cut by Scalby Road Bridge on A171. It

would have flooded the house if not for a raised patio. Some people further up the stream cover the beck - this could be due to increased flooding incident. The water in the beck is rain water coming off Throxenby Lane which is a big hill. Additional houses being built could add to the surface water. The beck is also being polluted by sewage. It is thought that some water from the beck could come from Throxenby Mere, down Lady
