<p>Condition Photos</p>			
<p>Condition</p>	<ul style="list-style-type: none"> • Cover intact but has broken hinge. • Plastic end cap present and in good condition. 		
<p>Known Depth</p>	<p>19.58m</p>	<p>Recorded Depth</p>	<p>19.60m</p>
<p>Comments</p>	<ul style="list-style-type: none"> • Water recorded at 8.12m. • Dummy inclinometer went to 19.4m – no issues with shear or breakage. • Cover was full of sand when opened. • Concrete surround and borehole cover are slightly raised above footpath level. As they are in the middle of the footpath, they are a trip hazard.
